¿Qué son los paneles Deco Innovations?

What are Deco Innovations Panels?

DECO INNOVATIONS, un panel de gran formato para el revestimiento de paredes y cualquier aplicación decorativa. Cuenta con una tecnología novedosa, la cual lo hace extremadamente rígido a la vez que ligero. Contamos con un nuevo sistema de acabado de superficies resistente al rayado, agentes químicos y abrasivos.

DECO INNOVATIONS is a large-format panel for wall coverings and any decorative application. It features innovative technology that makes it extremely rigid while remaining lightweight. We have a new surface finishing system resistant to scratches, chemicals and abrasives.

¿Cómo se coloca? How it works?

Gracias a su ligereza y alta resistencia estructural es un producto sencillo y rápido de colocar que no precisa de un profesional necesariamente ni de inversión en maquinaria, ya que se realiza de manera sencilla y limpia. Los paneles se adhieren con un polímero adhesivo a cualquier superficie, además de contar con un film protector destinado a facilitar la tarea de manipulado y colocación.

Thanks to its light weight and high structural strength, is an easy and quick-to-install product that does not necessarily require a professional or investment in machinery, as it can be installed in a straightforward and clean manner. The panels adhere to any surface using an adhesive polymer, and they are also equipped with a protective film to facilitate handling and installation.

Aplicaciones Applies

Compact Stone /

Interior / indoor

B-S1-d0

Panel ignífugo compuesto por polvo de calcio y pvc.

Perfecto para revestimiento de interiores, baños y duchas. Gran resistencia a los golpes y la humedad.

Fireproof panel composed of calcium powder and pvc.

Perfect for interior cladding, bathrooms and showers. High resistance to shocks and humidity.

Alumium Fr /

Interior y exterior / indoor & outdoor

B-S1-d0

Panel mineral e ignífugo, unido por dos láminas de aluminio de espesor 0,3 mm.

Máxima garantía y durabilidad. Resistencia total a la humedad y a los golpes.

Mineral and fireproof panel, joined by two 0.3 mm thick aluminum sheets.

Maximum guarantee and durability. Total resistance to humidity and shocks.

Ambos productos acabados con pigmentos cerámicos y resina UV de alta resistencia.
Both products are finished with ceramic pigments and high resistance UV resin.
